Sorry, no people match the phone search criteria you entered.
We recommend you search again.

- Check for correct spelling in all search fields including City and State abbreviation.
- Broaden your search by using fewer search fields.
- Use the wildcard character ("*"). For example typing "D*" as your first name search criteria will return people whose first names begin with "D".

It is also possible that the person you are looking for does not have a phone listing in Yahoo! People Search.

Unable to return results...

Reason: No listings were found.

- We searched on **Anna Kosmatka** in **PA** however; we could not find any listings to display.

Recommended possible solutions: Please alter your search information using one of the following (in priority order).

1. Check to see if your information was entered correctly. Make sure you're using the correct spelling or location (street, city, state or zip).
2. Too much information was entered. A common mistake is being too specific. Start with broader range of search information then narrow down if needed.
 - a. Some listings in the database do not contain zip codes thus, resulting in listings not being found.
 - b. For cities with multiple zip codes, use the city instead of the zip code when possible or just search within the state.
 - c. **For a Person:** Use a partial (wildcard) last name instead of the full last name. Try removing the first name or only use the first

help ?

Sorry, we were unable to find the person you requested.

Suggestions:

- No Luck? Try Public Records!
- Check the spelling of the person's name, city, and state.
- Broaden your search by entering less information (ex. just enter last name)
- If you are unsure of the spelling of the last name, enter just the first few letters (in this case, omit the first name).
- **Modify Search:**
